

PRIMUS

**What I do,
creates a
better
future for us**

PRIMUS is a European project that will improve the plastic recycling industry with new polymer recycling technologies for automotive and home appliances applications.

PRIMUS demo cases

Pilot 1.
Automotive
interior

Pilot 2.
Automotive
cooling circuit

Pilot 3.
Refrigerator to
refrigerator -
Food contact
demonstration

Pilot 4.
Washing
machine door
seal

Funded by
the European Union

Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or HADEA. Neither the European Union nor the granting authority can be held responsible for them.

PRIMUS will increase the circularity, production and use of sustainable, safe and quality recycle polymers in added value products, as well as transparency of the value chain by focusing on traceability.

01

Create quality and safe recyclates

03

Demonstrate application with 4 novel demo cases in automotive and home

02

Support use of recycled plastics as safe raw material

04

Support recycle market with debromination pretreatment and analytics.

**are you an
industry or citizen
willing to know more about
how to improve the plastic
recycling among us?**

join us!
